What can Scholarworks@bgsu do for you?

JOURNALS
ScholarWorks is an ideal platform for hosting and publishing open access journals with a BGSU affiliation. We can help with set-up and design, and register the journal with an ISSN. There’s a built-in system for easy submission and peer review, and editors and authors automatically receive regular reports on their article downloads.

CONFERENCES
ScholarWorks can host the content of conferences, and is designed to assist with the process from the call-for-papers, to displaying the schedule, to publishing the proceedings. The submission and peer review process are easy to manage, generating automatic email notifications to keep you in the loop. Your conference pages will be able to host images, links to other sites, email addresses, and full text PDFs of presentations.

OTHER PROJECTS
ScholarWorks is capable of hosting and displaying a wide variety of media files, for any other BGSU related web-based projects which need a home. Some samples include video photographs, audio files, faculty sponsored student work in capstone courses, e-text books, newsletters, podcasts, and posters.

YOUR SCHOLARLY REPUTATION
ScholarWorks can provide a permanent space to archive, preserve and promote your scholarly publications, with Google-optimization to make your content more visible, easier to find, and cited more frequently. The ScholarWorks system automatically sends monthly statistics to contributing authors, detailing how their material has been accessed, and all items are hosted on a secure server, with persistent URLs to ensure permanent access. We can also set up personal pages for faculty members, using the ScholarWorks related software ‘Selected Works’, which will allow you to present and manage your own academic profile even if you leave BGSU.

To get started, just email us at scholarworks@bgsu.edu and let us know what we can do for you!
ScholarWorks@bGSU

- Increased exposure for your work
- Higher citation rates
