Book Search Tips:

- Use the catalog's advanced search to look for both title and author.

- Spelling must be exact! If you're not sure, use * as a wildcard. For instance, searching for cull*n will find cullen, cullin, cullinan, and more. This is also handy if you remember only part of an author’s name.

- A book you find in the BGSU catalog should have one of these statuses:
  - Available: the book is on the shelf and can be checked out.
  - Due: the book is checked out and due on the date listed. You can put a hold on it by contacting the Circulation Desk.
  - Limited Circ: the book can be checked out with some restrictions (such as for a short time only).
  - Lib Use Only: the book is in the library and can be used here, but it can’t be checked out.
  - Missing: the book is gone. It may or may not be replaced.
  - In Process: The book isn’t on the shelves yet, but it will be fairly soon.

  If you want to check out a book with a status other than Available, search OhioLINK.

- You may also be able to find a copy in one of our E-Book collections, such as the OhioLINK Electronic Book Center or ebrary.
